ECOTECH REFRIGERANT RECLAIM PROGRAM (EASY AS 1, 2, 3)

1. Drop Off Your Used Recovery Cylinder

- ▶ We will take any used cylinder in exchange when you take a Polar Cylinder
- ▶ We will accept *any* cylinder as long as it can be reused
- ▶ There are no minimum weight or gas level requirements on the cylinders:
 - Dirty and battered cylinders? *We take it!*
 - Out of DOT certification date? *We take it!*
 - Give us an idea of what gas is in the cylinder, and...*We'll take it!*
 - 10, 30, 50, 125-lb cylinders (350 or 400 PSI)

2. You Will Receive A Polar Cylinder in Exchange for your Returned Cylinder

- ▶ Each recovery cylinder we give you will meet or exceed all DOT certifications
 - 350 and 400 psi cylinders
- ▶ We guarantee you will have a cylinder ready to use for recovery
 - Micro-Vacuumed
 - Valves with two working handles that are capped and covered
 - No leaks
 - Fresh paint
 - Compliant sleeve with safety health and contact info
 - Foot & neck ring straightened
 - No stickers or writing (graffiti removed)

3. EcoTech Process Begins

- ▶ Each cylinder is weighed
 - ▶ Each cylinder is analyzed-GC if needed
 - ▶ An itemized report is prepared
 - Mixed Gas will be reported if needed
- *Note: Ask us about our three strike rule.*

1. Buy Your Used Refrigerant

2. Recycle Your Used Refrigerant

3. Bulk Refrigerant Sales

4. Buy Back Used Cylinders

5. Refrigerant & Oil Analysis Testing

6. EPA & DOT Compliant

7. Qualified Solutions to Large Recovery Projects
