

SF6 Cylinder Sales & Rental

This Program Is Designed For:

- Companies who require cylinders for recovering and storage of SF6.
- Companies managing their own cylinder demands for storing industrial gasses, such as N2, O2, H2, CO2 or Air.

Benefits of the Program:

Ownership of cylinders will eliminate costly and administratively expensive reoccurring demurrage charges. When maintained properly, cylinders can last a lifetime. (We have maintained some cylinders for customers which were manufactured in the 1920's.)

- Freight included with every cylinder ordered.
- Fast delivery.
- Special pricing on larger orders.
- Cylinders can be outfitted for:
 - Recovery (Dual Part)
 - Virgin gas storage (RPD)
 - Containment of any compressed gas
- Company name can be stamped into the neck ring cylinder.
- Rental cylinders are available for short-term needs at low, fixed prices.

Overview & Features:

- New or refurbished cylinders.
- Receive cylinders with either a vacuum or a Nitrogen charge.
- Cleanest cylinders available anywhere.
- Huge inventory for prompt shipment.
- Special vertical packaging pallet available to purchase or rent.

How the Program Works:

- Call Polar/AKT with a P.O. on how many cylinders need to be ordered.
- Order confirmation is returned to you within 24 hours.
- Order ships within 24 hours.
- Freight included in price.
- With approved credit, invoice issued with 30 day terms.

Compliance:

- EPA
- DOT
- ASTM 2472
- DOE
- TRI

Notes:

- Available cylinder sizes:
20 lb., 40 lb., 70 lb., 115 lb.
and 1-ton tanks.
